- Foam brush
- Paper plates
- Sponge

## Stampbord Featured How-to

July 2008

Designer: Vickie Kammerer

### Stampbord Tic-Tac-Toe Board

**Step 1:** Remove wooden tic-tac-toe squares from set. Using a foam brush, paint both front and back sides of board with Folk Art Patina Acrylic Paint and let dry completely.

**Step 5:** Pour bleach onto a sponge and place on paper plate. Press stamps onto sponge and apply to each square from step 2. Let dry. Full bleach effect will take several minutes. When bleach effect is complete and squares are dry, seal squares with Krylon Kamar Varnish. Clean stamps with soap and water.

**Step 2:** While board is drying, spray the nine Stampbord squares with layers of LuminArte Radiant Rain Mists (let dry between layers). You can vary the color of the squares by alternating the colors between layers. Let squares dry completely.

**Step 6:** Run twine along top edge of board making a hanging loop in the center, staple the edges down and trim to edge.

**Step 3:** Brush Old Paper Distress Crackle Paint randomly over the front of the painted board. Let dry completely.

**Step 7:** Place Stampbord squares into tic-tac-toe slots. Move around until you like the layout. Glue squares in place with Aleene's Platinum Bond Glass & Bead Glue.

**Step 4:** Paint will crackle as it dries. When board is dry, seal with Krylon Matte Finish.

**Step 8:** Glue sand dollars and starfish embellishments into place. You now have a fun game board wall hanging to keep or give as a wonderful gift.
